INTRO

INTRODUCTION

Centenary Geotex Pvt Ltd. (CGPL) is one of the Largest Manufacturer of Agrotech and Geotextile Products. The Group is one of the most respected business houses in the country and has contributed immensely to the growth of Technical Textile Industry.

Certified with ISO 9001:2015, CGPL has inherited the legacy of Centenary Polytex Pvt Ltd, in providing the most exclusive range of products with a combination of Customisation and Quality. At CGPL, we leverage our rich multi decade sectoral experience and market understanding to grow our value added products in domestic and export markets, and build a sustainable unique position for Technical Textile Industry.

RAS

INFRASTRUCTURE

Spread over 25000 sq meters, with a capacity of processing 12000 ton annually. CGPL has ASTM and EN-ISO standard well equipped most modern & state-of-art Quality Testing & Development equipment, managed by a team of qualified and experienced professionals. Our technologically advanced gravimetric blenders ensure proper and thorough blending of black color and other UV inhibitors for all Agro and Geotextiles.

In a highly complex and ever-changing marketplace, we ensure our products meet consumer expectations, while complying with the required safety, regulatory and government standards. In our view, quality control is the prime enabler of quality assurance.

PRODUCT RANGE

Landscape Fabric (Spunbond)

CGPL spunbond polypropylene non woven fabric is used to suppress weeds in landscaping and garden applications. It works by blocking sunlight from reaching the soil, retarding weed growth uniformly.

Specifications

GSM: 50/80/90/100gsm

Standard Width: 1m – 3.6m / 3' – 12'

Standard Length: 100m / 300'

Colour: Black, White & Grey

Woven Ground Cover (Weed Mat)

CGPL woven UV stabilized polypropylene ground cover fabric is used by professional nurseries and landscapes in a variety of applications.

It provides a weed-free environment for potted plants while allowing water nutrients and liquid fertilizers to be absorbed through the fabric.

Specifications

GSM : 90/95/100/108/130gsm(3oz&3.5oz)

Standard Roll Width : 0.5m – 5.35m / 2' – 17.5'

Standard Roll Length : 100m–500m/300'–4000'

Colour : Black, White, Brown & Green

Woven Capped Needle Punched Fabric (Capillary Mat)

CGPL Capped Fabrics are high quality landscape fabrics of poly-woven, needle-punched construction. They conserve soil moisture, increase plant growth and serve as an effective weed prevention.

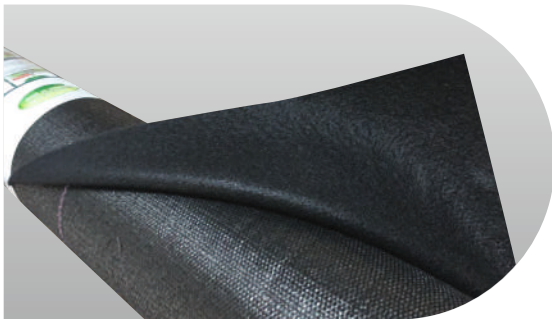

Specifications

GSM: 140/170(4.2oz&5.0oz)

Standard Width: 1m – 3.6m / 3' – 12'

Standard Length: 50m – 100m / 250' – 2500'

Colour: Black

Fleece / Crop Cover (Spunbond)

CGPL's Crop Cover acts as a protective greenhouse by trapping heat and guarding against the light frosts. Crop Cover allows air, water and sunlight to pass through because of its permeability.

Specifications

GSM: 17/30/50gsm (0.9oz, 0.5oz & 1.5oz)

Standard Width: 1m – 3.6m / 3' -12'

Standard Length: 50m – 500m / 100' – 1000'

Colour: White

Planter Bag (Grow Bags)

These high-strength, woven polypropylene Planter Bags are designed to withstand harsh climates and display extreme UV inhibition.

Specifications

Ltr: 10 L to 160 L

Color: Black, Green, White and Brown

Planter bags sizes starting from 10 litre and above

Silt Fence (Erosion Controller)

A silt fence is a temporary sediment barrier consisting of a Geotextile, entrenched into the soil and attached to support posts to efficiently control sediment runoff from construction sites.

Specifications

GSM: 48/55/70/90/100(1.4oz - 3oz)

Standard Width: 3'

Standard Length: 50' – 9900'

Colour: Black / Orange

Wire Backed Silt Fence (Sediment Barrier)

CPGL's Wire-backed Silt Fences are constructed of 14 & 16-gauge wire mesh and covered with a woven silt fence fabric. The wire mesh provides additional support against substantial loads of silt and water.

Specifications

GSM : 70 / 100

Standard width : 24" / 36"

Standard length : 100'

Guage : 14 / 15 / 16

Mesh Opening : 2"x4" / 4"x4"

Woven Geotextile (Sediment Barrier)

CGPL offers high quality, polypropylene, woven geotextiles to stabilize areas under pavements, roads, sidewalks and other similar infrastructures.

Specifications

Types: 200lbs / 250lb / 315lbs

Standard widths: 12.5'-15.0'-17.5'

Standard roll lengths: 432'-360'-300'

Colour: Black

Retail Packaging

We offer a wide range of packaging as per customer requirements.

1. Master Roll
2. Retail Pack
3. Palletized Pack
4. Box Pack
5. Folded

We can do mini rolls for all the fabrics

It's mostly used in small constructions & home applications:

Easy to handle & install

Length as per customer starting from 5m / 20'

Wrapped in shrink / Stretch film

Packed on pallets / boxes

Private Labeling

Leaflet Packing

EXPORT NETWORK

We have got a robust network of distribution channels to supply our products across the globe. Today we have major clients based in USA, Europe, UK, Australia, New Zealand, Africa, Canada and Middle East.
